Session 32

Trade Review

K.Preethi
II B.Com(Honours)

Trading Summary:

Particulars	Observation
Number of Trades Reviewed	5
Number of Trades Closed	5
Number of Open Trades	0
Number of Profitable Trade	4
Number of Losing Trade	1
Total Realised P&L	-$5.71
Total Unrealised P&L	+$10.55
Trading Strategy Used	Combined Strategy
Number of Trades following the Trading Plan	5
Number of Trades Requiring Improvement	1
Number of Previous Mistakes Avoided	4
Number of Previous Mistakes Repeated	1
Main Weakness Observed	Better entry and exit timing is needed.

Overall Trade Review:

Particulars	Observations
What was the overall outcome of the trades reviewed?	The overall outcome was mixed, with both profit and loss trades.
What worked well across the trades?	The long strategy worked well in most trades.
What problems appeared repeatedly?	Entry and exit timing needs improvement.
Were there repeated deviations from the trading plan?	There were a few small deviations from the plan.
Were there repeated deviations from the selected strategy?	No major deviation from the long strategy was observed.
Which previous mistakes were successfully avoided?	Unplanned entries were mostly avoided.
Which previous mistakes continued to occur?	Timing mistakes continued in some trades.
What common pattern did you observe?	Most trades were based on a long position.
What was your main trading strength?	My main strength was following the selected strategy.
What was your main area requiring improvement?	My main area for improvement is entry and exit timing.

Particulars	Observations
What was the overall trading outcome?	The trades showed a mixed result with both profits and losses.
How would you describe the quality of your trading process?	The process was reasonable, but it needs better timing and planning.
Did the outcome accurately reflect the quality of your process?	Yes, the mixed outcome reflects that the process was good in some areas but still needs improvement.

Pattern Identification Table:

Area	What pattern did I observe?
Most common strength	Following the long strategy.
Most common Weakness	Entry and exit timing.
Most common reason for entering	Price movement showed a possible upward opportunity.
Most common execution issue	Entry timing was not always accurate.
Most common planning issue	Entry and exit levels need better planning.
Previous mistake successfully avoided	Unplanned trading was mostly avoided.
Previous mistake repeated	Timing mistakes were repeated.
Most important pattern	Careful entry and exit timing can improve the results.

Improvement Actions:

Area Requiring Improvement	Evidence/Reason	Action for Future Trades
Entry timing	Some entries were not at the best time.	Wait for a clear entry signal.
Exit timing	Profit and loss varied between trades.	Set a clear exit level before entering.
Trading plan	One trade needed improvement.	Follow the trading plan consistently.
